

# GRAND-PAWS SENIOR SANCTUARY

## ADOPTION PROCEDURES

**We rescue dogs and care for them until they are placed in new homes.**

### How Do We Get The Dogs?

The dogs we rescue were lost, abandoned, given up by their owners, from foreclosures or taken from death row at the pound. The dogs in our program are never killed. If the quality of life is at stake, then the dog is humanely euthanized. These dogs are kept in our care until the right home is found...  
no matter how long it takes.

### Are the Dogs Healthy?

Yes! While the dogs are in our care, we provide all necessary veterinary care for them, including necessary vaccinations and worming. All dogs over 6 months are spayed or neutered. Dogs over 8 yrs old have blood panels. Teeth cleaning is routinely done as needed. All dogs are microchipped.

### How Does The Adoption Program Work?

1. Select the dog you are interested in.
2. Speak to a volunteer about the process.
3. Fill out our adoption application form.  
Note: Filling out an application **DOES NOT** guarantee an adoption.
4. Upon acceptance of the application, we set up an appointment to visit your home to confirm that everything is secure and safe for the dog. We also do animal introductions. We then deliver the dog to your home. No dog is ever taken directly from our adoption program without the home check.
5. The adoption process is complete only when a contract is signed and duly executed, the dog is delivered to your home, and the adoption fee is accepted by an authorized agent of **GRAND~PAWS SENIOR SANCTUARY**.
6. We offer a lifetime return policy. If you are unable to keep this dog, you **MUST** return the dog to us.

**WE RESERVE THE RIGHT NOT TO ADOPT**
